

Welcome to Stony Creek Canine Academy for a CPE agility trial!

A quick summary of the practices at SCCA:

Restrooms

- Porta-potty by the big pine tree.
- Restrooms with running water in small white building past the Sales Room.

Exercise / Dog potty areas

- Little valley on the other side of the driveway (in front of large white barn, by antique tractors).
- Big field way past the red grooming shop.
- Please pick up after your dog and dispose in the trash cans by the gate.
- Do not walk into the apple orchard or beyond marked off areas.

Entering and leaving the ring

- No toys or treats are allowed past the swinging gate; exception to approved DTIR toys.
- The dog leaving the ring has the right of way.
- No one is allowed to sit at the scoring table except the judge and the person scoring the scribe sheets.
- Make sure the scribe knows your dog's name before you start and wait for the timer's signal.

Workers

- There will be a worker sign up available at the trial.
- If you are bar setting, use the yellow bars for 4" height on the fixed stanchions and the blue for all other heights.
- If you must have a cell phone in the ring, please make sure it is on silent.

Miscellaneous

- The pre-entered exhibitor catalog can be viewed after May 22nd at <http://www.stonycreekcanineacademy.com/cpe-competitor-page.html>
- In lieu of worker Lunch we will be issuing worker buck credits to be used for your next SCCA trial entry! We will also be offering ice cream or watermelon for those workers who help with the last class of the day (either in 12 and/or 345C)!
- Moving your Dog in the lineup requires this be done with both the running order and the score sheets so please see either Venisa or Rhyan.
- Make sure you verify your results as soon as possible and if you have questions, you can ask promptly, the judge is not likely to remember a run from Friday that you question on Saturday and all results will be final at the end of day Sunday.
- Ribbons available and results will be posted in the Salesroom (large white cement building at the top of driveway).
- Please let Venisa know if you may be earning your C-atc or C-ate so we can allow you time to celebrate with your pup.
- A hose will be located by the large pine tree closest to the house. This is to allow access to cold water for dogs. This is from our home well. Please use it to cool and get water but not for endless play time.

- All courses, except Jackpot and FullHouse, have when the next dog should enter the ring barring any issues. Please be alert to move in quickly for these games once you hear the whistle and the previous dog's run is completed.

HAVE FUN!!!
